

BAMERT SEED COMPANY®

Since 1951

Reclamation Seeding Guide

Our Story

Bamert Seed Company's dedication to providing the best has allowed us to offer over 400 species of high-quality native grasses, forbs, and legumes. The species and varieties we produce have been carefully selected to match the soil and climatic conditions of the Southern Great Plains and beyond, making them adaptable to most areas in the Southern US. Our people and processes allow us to have great confidence in our product.

Seed Locally Adapted to Your Area

Pipeline ROW
Power Line ROW
Solar Farms
Wind Farms
Pad Site Reclamation
Wildlife Habitat
Prairie Restoration
Soil-Type-Specific Blends
DOT Projects

Most seeds are harvested and processed in our state-of-the-art facility for top quality assurance.

Value Added Services

Consult with our specialists for custom blend development and proper planting techniques. Adapted varieties and local ecotype specific releases available for your area.

Most orders ship in 24 hours. FREE custom blending on most orders.
If your desired species is not listed, please call for availability.
